Homecraft Tri Wheeled Walkers

1 Homecraft Three-Wheeled Rollator

The Three-Wheeled Rollator from Homecraft is extremely durable making it ideal for everyday use. Excellent value for money, it features either easy to operate loop brakes, which provide secure stopping and lock into place for security, or pressure brakes. Height adjustable handles ensure the correct position for the user. It folds easily for transportation and storage and will remain upright when in the folded position. The rollator comes complete with a handy zippered carry bag and large basket with tray. The bag can be left in place when the rollator is folded. The sturdy steel frame is available two attractive colours, Ruby and Quartz. Handle height adjustable from 815 to 965mm (32 to 38”). Wheel diameter 200mm (8”). Overall width 640mm (25¼”). Weight 8kg.

Colour Brakes
09 116 9978 Quartz Cable
09 116 9960 Ruby Cable
09 118 3292 Ruby Pressure

Maximum user weight 120kg 18⅞st

2 Homecraft Aluminium Three-Wheeled Rollator

The aluminium Three-Wheeled Rollator from Homecraft is a lightweight alternative to the steel rollators above. It features easy to operate loop brakes, which provide secure stopping and lock into place for security, and height adjustable handles to ensure the correct position for the user. The Graphite coloured frame is modern and attractive and the rollator comes complete with bag and basket with tray. Handle height adjustable from 815 to 965mm (32 to 38”). Wheel diameter 200mm (8”). Overall width 640mm (25¼”). Weight 6kg.

09 118 1924

Maximum user weight 120kg 18⅞st
1. **Three-Wheeled Rollator Bag**
   A large vinyl bag for use with most three-wheeled rollators. Clips easily and securely around the frame with press-studs. The zipped lid enables easy opening and closing. Weight 650g.
   AA8376

2. **Large Basket and Tray for Three-Wheeled Rollator**
   Handy for carrying small and large items, this wire basket fits onto most three-wheeled rollators and has a detachable plastic tray. Size 290 x 240 x 255mm (11½ x 9½ x 10”). Weight 980g.
   AA8374

3. **Three-Wheeled Rollator Basket**
   Vinyl coated steel basket, which attaches between the handles of most three-wheeled rollators. Weight 300g.
   AA8375
Extra Wide & Bariatric Rollators

1 Homecraft Extra Wide Rollator
Designed to accommodate larger users who need support while walking. This attractive rollator, available in Ruby or Quartz, has an extra wide seat and height adjustable handles. 200mm (8") swivel wheels allow users to easily manoeuvre the rollator. It features a large carrying basket, padded seat and removable backrest. Loop brakes with brake locks allow for secure stopping. Easily folds for transport and storage. Handles height adjustment from 775 to 890mm (30\(\frac{1}{2}\) to 35\(\frac{3}{4}\)”). Width between handles 650mm (25\(\frac{1}{2}\)”). Seat width 460mm (18\(\frac{1}{2}\)”). Seat width 550mm (22\(\frac{3}{4}\)”). Overall width 700mm (27\(\frac{1}{2}\)”). Weight 7kg.

09 118 3342 Ruby

Maximum user weight 200 kg 31\(\frac{1}{4}\) st

2 Bariatric Wheeled Walking Frame
Accommodates larger individuals up to 325kg (51st) and ensures a high degree of stability for the user. The two wheels offer a high degree of mobility and the frame folds easily for storage and transportation.

Height adjustable from 780 to 1010mm (30\(\frac{3}{4}\) to 39\(\frac{3}{4}\)”). Width 760mm (30”).

AA8339

Maximum user weight 325 kg 51 st
Walking Frame Accessories

1. **Net Bag for Walking Frames**  
   *Homecraft*  
   Knotted nylon bag that clips to any walking frame for shopping or daytime requirements. Weight 60g.  
   AA8270Y

2. **Apron Bag for Walking Frames**  
   *Homecraft*  
   Waterproof bag that ties to unfolded frames to provide carrying capacity for books, shopping, cleaning materials etc. Has front and two side sections. Weight 230g.  
   AA8276

3. **Wheeled Extension Legs**  
   *Days*  
   Wheeled extension legs for adjustable height walking frames. Use as a replacement or turn a non-wheeled walking frame into a wheeled one.  
   AA834301

4. **Walker Basket with Tray**  
   A vinyl coated wire basket tray, ideal for carrying items, leaving the hands free to move the walker. Attaches easily and safely to the walker frame using the hook and loop straps supplied. Plastic tray insert included. Size 410 x 150 x 190mm. Weight 400g.  
   AA8378

5. **Walker Skis**  
   Used on the back legs of any wheeled walker to increase mobility. These durable nylon glides move without drag or friction. Fit most walkers with leg tubes 25mm (1") or 29mm (1⅞").  
   09 118 1403  25mm (1")  
   A700224  29mm (1⅞")

6. **easyCaddy**  
   Similar to the Buckingham Caddy, the easyCaddy is supplied with a caddy, lid and cup holder and is designed specifically for folding wheeled walking frames. Fits most folding walkers with release buttons towards the sides of the frame. Maximum carrying weight 2kg. Length 412mm (16⅛"). Width 322mm (12½"). Height 185mm (7½"). Weight 1kg.  
   AA8383
Buckingham Caddy

Developed by healthcare professionals to enable users of wheeled walking frames to safely transport a variety of daily living items. In most instances it can replace the need for a trolley. The caddy enables a patient to carry most items safely and more importantly, independently, without being reliant upon carers. One large and one small compartment to allow the user to separate items such as glasses, keys, medication etc. Supplied with a tray that is designed to safely transport a plate of food and a mug holder, which catches any spillages. An anti-spill mug cover is also included to prevent any inadvertent spillages when transporting a mug or cup. This simple cover creates a seal and helps to keep liquids inside. It also insulates hot drinks, helping to keep them warm. The caddy is easy to fit to most styles of walking frame. Manufactured from a tough, durable plastic it can be cleaned in a dishwasher and has drainage holes for easy drying.

- Width without tray 434mm (17").
- Width with tray 457mm (18").
- Depth with tray 310mm (12\(\frac{1}{4}\)”).
- Height 200mm (8”). Total weight 1kg.

BEST SELLER
**Height Adjustable Stick Seat**
This stick seat is constructed from aluminium and plastic, making it extremely lightweight to carry and corrosion resistant. It folds easily away, turning into a stick that can be used for support when walking. The most stable seated position is with the handle between the user’s legs. Handle height 845 to 950mm (33⅓/4 to 37⅓/4”). Seat height 455 x 540mm (18 x 21⅛”). Weight 900g.

**Folding Stick Seat**
This useful seat folds flat and straps together to form a walking stick, offering both support and a place to rest when needed. Manufactured from aluminium, it is both lightweight and corrosion resistant.

**Folding Tripod Stick**
This attractive seat provides a useful place to rest when out and about. The tripod base ensures it is stable whilst the moulded seat offers comfort and support when needed. Folding away quickly and easily, it can also be used as a walking stick. Seat height 575mm (22½”). Weight 800g.

**Folding Aluminium Stick Seat**
A stylish tripod stick with leather covered handle and seat that opens up to rest when tired. It can also be used as a support when walking. Handle height 850mm (34”). Seat height 530mm (21”). Weight 1.1kg.

**Flip Stick**
The Flip Stick is a lightweight modern variation on the classic stick seat. It is perfect for waiting in queues, hiking, walking or even waiting for the bus, providing a portable seat wherever you are. Simple to assemble, it is available as a standard stick or folding with a handy carrying pouch.

Walking Stick Accessories

1. **Leather Wrist Strap** *Homecraft*
   The leather handle attaches to the stick with a hook and loop strap. Saves putting down or dropping the stick when using your hand, e.g. when shopping. Length 171mm (6¼”). Weight 30g.
   AA8256

2. **Walking Stick Strap** *Homecraft*
   This nylon wrist strap offers exceptional value for money and is suitable for use with all sticks. The elasticated hoop allows easy and secure fitting. Weight 5g.
   AA8243

3. **Walking Stick Grip**
   A value for money clip that grasps the stick, allowing it to be balanced on the edge of a table or worktop. May also be used underneath the table or worktop to wedge the stick upright. Fits most styles of walking stick. Weight 20g.
   AA8244

4. **Walking Stick Clip**
   This double clip device can be used for walking sticks, reachers and many other applications. Fitted onto a wheelchair or walker using a rubber ring system. The plastisol coated clip securely grips walking sticks and reachers.
   AA8209

5. **Stick Holder**
   This simple attachment for a walker or wheelchair keeps a walking stick readily available when required. The stick rests in the lower cup section and clips into the top half of the holder to secure it into place. The holder is easily attached to most types of wheelchair or walker. Weight 115g.
   AA8379

6. **Flexi Grip and Base**
   Mounted on either wheelchair or walker, this holder comes complete with a cup to ensure the base of the stick stays in place. The grip is easy to activate, ensuring simple attachment and removal of the stick. Available in three sizes (for different diameter tubing on the wheelchair or walker). Weight 100g.

Elbow Crutches

1. Shock Absorbing Crutches
The patented shock absorbing system within these crutches helps to reduce the strain on wrist, elbow and shoulder joints. Height adjustable between the handle and the floor and between handle and cuff. Aluminium and plastic construction ensures these crutches are lightweight, just 600g each. Height to handle 780 to 960mm (301/4 to 373/4"). Handle to cuff 230 to 330mm (9 to 13"). Ferrule size 22mm (7/8"). Sold in pairs.

AA8189
Maximum user weight 100 kg 15 7/8 st

2. Arthritic Crutch
Made from lightweight anodised aluminium with adjustable height handles, this arthritic crutch features an arm trough for user comfort. The rotating handles reduce strain on wrists and the non-marking, slip resistant rubber tips add user safety. Adjustable from 94cm to 119cm (37 to 47").

09 143 7888
Maximum user weight 160 kg 33 1/2 st

3. Soft Grip Comfort Handle Crutches
These crutches feature a soft anatomically shaped handle for comfort and are available in four modern colours. They are height adjustable between both the arm cuff and handle and the handle and ferrule. Supplied in pairs. Height to handle 730 to 960mm (281/4 to 371/4"). Handle to cuff 240 to 290mm (91/2 to 111/2"). Ferrule size 181/2mm (3/4").

**Ergonomic Handle Crutch**

The Days Healthcare ergonomic handle has been designed and developed in conjunction with physiotherapists and healthcare professionals. The unique handle distributes pressure over a greater area of the user’s hand improving comfort and safety. Made from lightweight anodised aluminium these crutches feature an angled neck to reduce strain on the users’ wrist. All are height adjustable and the plastic hand grip can be wiped clean and all feature non marking slip-resistant ferrules for added safety. The closed fixed armband enables the user to retain the crutch on their arm even if they release the handle.
